

## Sensil® Brand Certification Requirements

Nilit® is a global leader in polyamide 6.6 production and we are focused on delivering high quality products and innovation to our customers around the world. We have a wide range of innovative fibers under the Sensil® brand name.

**Using the Sensil® brand could not be easier, just follow the 3 easy steps: -**

1. Fabric developed with Sensil® products should be submitted for testing using the form below to our certification test laboratory.
2. We will confirm in writing the results of the certification testing, and if the fabric meets the Sensil® Brand Certification Requirements detailed below, a unique reference number will be provided with the approval certificate.
3. The fabric mill can then identify their fabric samples as Sensil® Breeze and garment manufacturers can request hangtags by quoting the unique fabric approval reference number. Applications for hangtags by garment makers can be made directly on our Internet site <http://www.nilit.com/hangtags>

The following certification standards apply to all fabrics and garments that use the Sensil® brand. This permission must be requested for all new articles produced before the Sensil® brand is used.

<b>Sensil® Brand Qualifiers</b>	Fabrics and garments must contain Sensil® yarn manufactured by Nilit (see Nilit product list)
<b>Other Fibers</b>	For circular knits, seamless, socks and hosiery the minimum content is 66.6%.
<b>Garment Content Requirements</b>	All other fiber types are permissible. Nylon yarns used in combination with Nilit® products should be from Nilit whenever possible.

### Terms and Conditions

- Garment manufacturers are responsible for garment quality and for ensuring, along with the fabric producer, that the fabric is suitable for the intended enduse.
- The written approval from Nilit to use the Sensil® brand on any specific certified fabric style is valid for **3** years. After this period, permission to use the brand would need to be requested again and new samples submitted for testing.
- Nilit may refuse the use of the Sensil® brand for low quality fabrics and garments. Unauthorized usage of the Sensil® trademark is subject to prosecution.

### Disclaimer

This Brand Requirement Certification document contains only selected data and further information on our Internet site should be carefully read. Customers using Nilit products are responsible for ensuring that it is suitable for the intended enduse. Full information via: [www.nilit.com](http://www.nilit.com)
